Three Ways to Keep a Friend Alive

In situations that involve drinking, many people believe that coffee, a cold shower, or fresh air are all that's needed to overcome the effects of alcohol. In truth, **time** is the only way to get alcohol out of the system. If a friend of yours has been drinking, he or she shouldn't drive. There are three steps you can take to keep a friend alive.

1 *Drive Your Friend Home*

You're having a party. One of your friends has had too much to drink and should not drive. To be sure your friend arrives home safely, you can drive him or her yourself, if you haven't also been drinking.

2 *Call A Cab*

If you can't drive your friend home, you can call a cab. You may want to pay the fare in advance. That's one way to show you really care.

3 *Have Your Friend Sleep Over*

Asking a guest to sleep over is another good way to keep a friend from driving. You won't have to drive and your friend won't have to return the next day for the car.

Impaired driving is no accident. It is a violent crime that kills. Every 33 minutes, someone in America dies because of a drunk or drugged driver. Every two minutes, someone is injured. You, your family or your friends could be next.

You can stop impaired driving in its tracks. Designate a sober driver, take a cab or spend the night where you are. Remember...

You Drink & Drive. You Lose.
